

Gavin Mikhail, Back For Me

How did I miss something?
When did you decide
In your heart
That we aren't
Worth the fight?
Though it's been awhile I'm finding
It hard to see your side
And I don't
Think you know
What that's like...

I know it's time I live my life without you
But even though I should let go and try... no...

I wonder where you are
Wonder what you need
Wonder why you mean so much to me
And after all this time
I still can't understand why
They say you're never coming back for me...

I'm facing down the memories
And I don't understand
What you thought
Where you've gone
Why you can't
Try again and show me every
Emotion that you have
All the rest
Whatever's left
That's all I ask...

I know it's time I live my life without you
But even though I should let go and try... no...

I wonder where you are
Wonder what you need
Wonder why you mean so much to me
And after all this time
I still can't understand why
They say you're never coming back for me...

But I would give up everything that I am
For you for just one chance at what we had
And, if we're through I wish that you'd understand
Then you'd know why I can't let go...

I wonder where you are
Wonder what you need
Wonder why you mean so much to me
And after all this time
I still can't understand why
They say you're never coming back for me
I wonder where you are
Wonder what you need
Wonder why you mean so much to me, baby
And after all this time
I still can't understand why
They say you're never coming back for me
Back for me
Back for me
Won't you come back for me?
Back for me
You know I love you

Won't you come back for me?
