

Gavin Mikhail, Take

I can see you crawling fast along the shadow
Side of greed through all the past alone you travel...
Tell me I can fight you
Tell me I can try you
Tell me all I want
To see you from beneath me...

Take what you can when you can
Take what you can when you can...

Sit me down you talk of time your truth the reasons
Why you need us bleed us dry no room for me and...

Tell me I can fight you

Tell me I can try you

Tell me all I want

To see you from beneath me...

(Tell me I can feel it comin' around you drown the fight in us again and I can feel you pinning me to the wall)

Take what you can when you can
Take what you can when you can...

I can see you run and hide among the flashing
Signs of passion passing by your understanding...

Tell me I can fight you

Tell me I can try you

Tell me all I want

To see you from beneath me...

Take what you can when you can
Take what you can when you can
Take what you can when you can
Take what you can when you can...

(Tell me now tell me now tell me now all of the reasons why you're feeding the dreamers to bleed the world)
