

GAYLE, everybody hates me

my brain gets weird and i feel crazy
i work too much but f*** i'm lazy
try your best but you can't phase me
i live my life like everybody hates me
everybody hates me
everybody hates me

life's a b**** and i'm not surprised
if you read my mind you'd probably cry
i do it myself all the time
life's a b**** and she's cool with me
i'll let it be
hard world to please
i live my life like everybody hates me

i'm the type to touch myself just for a touch of serotonin
you're the type to run your mouth to fit in a world that you feel alone in
everybody hates me
everybody hates me

life's a b**** and i'm not surprised
if you read my mind you'd probably cry
i do it myself all the time
life's a b**** and she's cool with me
i'll let it be
hard world to please
i live my life like everybody hates me

Nanananananananananananana

life's a b**** and i'm not surprised
if you read my mind you'd probably cry
i do it myself all the time
life's a b**** and she's cool with me
i'll let it be
hard world to please
i live my life like everybody hates me
