

# Gehennah, Tough Guys Don't Look Good

You feel your hair with hair-mousse, you fill it with shampoo  
We'll crush your face with crowbar, that's what we're gonna do

You exercise and run, you wanna be in shape  
But when you're outside jogging your girlfriend we will rape

Tough guys don't look good

We're long-haired and we're dirty, we're ugly and we're smell  
But if you're in our way we're gonna give you hell

Tooth brush is unknown to us, the dentist cry in fear  
And instead of doing exercise we drink a lot of beer

Tough guys don't look good

We drink whiskey like water, we're drinking wine and booze  
And if you wanna fight us you're gonna fuckin' lose

So if you not one of us, you're our enemy  
You'll wake up in a hospital, that's where you're gonna be

Tough guys don't look good
