

Gene Clark, All I Want

I've been counted now as this lonely lover
And it's all because of you
I ain't slept a wink since you left me baby
I ain't had nothing but bad since you said we were through, 'cause

All I want is your love
All I want is your kiss
All I want is to hold you

All I want is your love
All I want is your kiss
All I want is to hold you

Believe me I don't find one thing funny
'Bout the things you say that you're gonna do
You know it ain't got nothing to do with money
All it's got to do with is how I feel about you, 'cause

All I want is your love
All I want is your kiss
All I want is to hold you

All I want is your love
All I want is your kiss
All I want is to hold you

I know that you know a million Casanovas, lover
And you know that I know a million bitches too
But there ain't a hundred of them gonna snow you under
Or blow your cover or make you feel blue

SOLO

I hope I see your face come Monday morning
I've got to lose these sideway blues
And don't you ever leave me again without warning
Next time it'll be my mind that I am going to lose, 'cause

All I want is your love
All I want is your kiss
All I want is to hold you

All I want is your love
All I want is your kiss
All I want is to hold you, hold you

All I want is your love
(It's all I really want to do)
All I want is your kiss
All I want is to hold you

All I want is your love
All I want is your kiss
All I want is to hold you

All I want is your love
All I want is your kiss
All I want is to hold you

All I want is your love
All I want is your kiss
All I want is to hold you

I know you hurt and cry

'Cause you know all I want is you
