

# Gene Clark, Full Circle Song

Funny how the circle turns around  
First your up and then your down again  
Though the circle takes what it may give  
Each time around it makes you live again

Funny how the circle is a wheel  
And it can steal someone who is a friend  
Funny how the circle takes your flight  
And if it&#039;s it right it brings you back again

Funny how the circle turns around  
You think your lost and then you&#039;re found again  
Though you always look for what you know  
Each time around it&#039;s something new again
