

Gene Clark, Pledge To You

I have a prayer, I have a dream and I believe
That in my life there's only one true love I need
And I can be free, I can be free
With you here with me

For if the world we know should end without warning
I want one thing to be true
I pledge my love to you my darling
And I'll be there with you

Somewhere I've seen the ages so fast
You and I were again
In a romance we knew that would last
'Til our own history's end

So I pledge my love to you every morning
I know only one thing I do
If I've gone away and there's no warning
I won't be away without you

We'll be together again and again
And each time we'll review
Maybe we'll never remember just when
All our dreams will come true

So in my prayers I believe
That you can dream
Just as long as you need
In the right way you'll be back to the place, your embrace

If the world we know should end without warning
I pledge to never to leave you
I will be there every morning
In spirit and heart and I do

Even though we may be worlds, girl, apart
There is one thing we'll know
Time has no boundary as far as our love
And that's as far as it wants to go
So if the world we know should end without warning
I pledge my love, dear, to you
I pledge my love, dear, to you
I pledge my love to you
