

Gene Loves Jezebel, Nothing Lasts Forever

Hopes and wishes are of all times
And so are these dreams
But right now it comes to me as if

REFREIN

Nothing lasts forever
Everything will change
Im trying to get my life together
Ahead of all these games
Nothing lasts forever
Thats how its gonna be
But no matter where the road ends up
You are always part of me

We have driving such a long way
To make it through the night
But right now and here it feels as if

REFREIN

Yes, Ive waited for you in all my dreams
How Ive wanted you to be here
But right now I know that at last it seems that
Nothing, nothing, nothing

REFREIN
