

# Gene Simmons, See You In Your Dreams

The party's over, you're in the corner, you're all alone for the night  
And you pick up a phone, you want me to hold  
Well dry your eyes, it's alright, it's alright

Chorus:

See you, feel you in your dreams tonight  
See you, feel you in your dreams tonight, dreams tonight

When you're in the room, you're home too soon, you can't get me out of your mind  
And you get in bed, you cover your head, my letter to you is signed

I love you, you know I do, but take me home tonight  
And think of me, I think of you, baby baby it's alright, it's alright yeah

chorus

When you're in the room, you're home too soon, you can't get me out of your mind  
When you get in bed, you cover your head, my letter to you is signed  
And this is what I'm sayin'

chorus repeats 3x

See you, feel you in your dreams tonight. See you
