

Gene Simmons, See You In Your Dreams

The party's over, you're in the corner, you're all alone for the night
And you pick up a phone, you want me to hold
Well dry your eyes, it's alright, it's alright

Chorus:

See you, feel you in your dreams tonight
See you, feel you in your dreams tonight, dreams tonight

When you're in the room, you're home too soon, you can't get me out of your mind
And you get in bed, you cover your head, my letter to you is signed

I love you, you know I do, but take me home tonight
And think of me, I think of you, baby baby it's alright, it's alright yeah

chorus

When you're in the room, you're home too soon, you can't get me out of your mind
When you get in bed, you cover your head, my letter to you is signed
And this is what I'm sayin'

chorus repeats 3x

See you, feel you in your dreams tonight. See you
