

# Gene Simmons, Whatever Turns You On

(Dave Williams, Gene Simmons)

Whatever turns you on, turns me on, hey (whoo-oooh)  
Whatever turns you on, turns me on, hey (whoo-oooh)

(Verse)

Well who else would I be (a-ha, a-ha)  
If I lost this dark side of me (no, no, no, no)  
You know damn well  
You'll never change me  
I wouldn't be any good (say what)  
If you could take away all this pain  
I really do think you should

(Break)

Well if you keep it strong, and I'll keep it up (yeah, yeah)  
Whatever turns you on, turns you on  
And if you set it straight, I will not hesitate  
Whatever turns you on, turns me on

(Chorus)

Whatever turns you on, turns me on, hey (whoo-oooh)  
Whatever turns you on, turns me on, hey (whoo-oooh)

(Verse)

So you've been walking around in an haze for days and days and days  
Ever since you kicked me out of your bed you were left in some kind of haze  
How can you feel how you feel how you feel and feel that you're feeling good  
I know you know what I'm saying  
You know I know we can keep it up all night

(Break)

And if you keep it strong, and I'll keep it up (yeah, yeah)  
Whatever turns you on, (hey) turns you on  
And if you set it straight, I will not hesitate  
Whatever turns you on, (hey) turns me on

(Chorus)

Whatever turns you on, turns me on, hey (whoo-oooh)  
Whatever turns you on, turns me on, hey (whoo-oooh)  
Whatever turns you on, turns me on, hey (whoo-oooh)

So you've been walking around in an haze for days and days and days  
Ever since you kicked me out of your bed you were left in some kind of haze  
How can you feel how you feel how you feel and feel that you're feeling good  
And if you keep it strong, and I'll keep it up (yeah, yeah)  
Whatever turns you on, (hey) turns you on  
And if you set it straight, I will not hesitate  
Whatever turns you on, (hey) turns me on

Whatever turns you on, turns me on, hey (whoo-oooh)  
Whatever turns you on, turns me on, hey (whoo-oooh)  
Whatever turns you on, turns me on, hey (whoo-oooh)  
Whatever turns you on, turns me on, hey (oh yeah)
