

Gene Watson, Hold Me

I'll be your companion
Stay right here thru the night
And I will never let go
Until the day you die
Here's til the end
The best love you'll find
If you'll just hold me

Some say I'm trouble
From the first touch of your hand
But I can bring you comfort
And I'll always understand
And I'll quench your thirst
In the desert sand
If you'll just hold me

chorus
Oh I am just a bottle
And I'm only made of glass
But I am full of courage
To help you forget the past
I'll be strong when your weak
If you'll give me a try
Oh I can help
I can rule your life
If you'll just hold me

Temptation is my kingdom
And I rule it day and night
Oh I can take two wrongs you've done
And make them seem all right
I conceal the truth
Til you believe a lie
If you'll just hold me

chorus
Oh I am just a bottle
And I'm only made of glass
But I am full of courage
to help you forget the past
I'll be strong when your weak
If you'll give me a try
Oh with your help
I can rule your life
If you'll just hold me

Repeat
I'll be strong when your weak
If you'll give me a try

Oh I can be the last love of your life
If you'll just hold me
If you'll just hold me
Won't you hold me
Oh please hold me
