

Gene Watson, I Won't Be Sleeping Alone

I believe that today is a new day
And that yesterday had a long way to go
And if by tonight everything is right
I won't be sleeping alone

I'm gonna find her and tell her I love her
That's all she ever wanted to know
And if by tonight everything is right
I won't be sleeping alone

I won't be alone in her arms tonight
I'll have more than her memory holding me tight
And if by tonight everything is right
I won't be sleeping alone
I won't be sleeping alone
