

General Public, Never Not Alone

When you're out on the street
in amongst a thousand people
all full of opinions
You're never not alone

When you're coming in
When it's time to make your exit
When you're out on the dancefloor
You're never not alone
Never not alone
You're never not alone
You're never not alone
You're never not alone

Brum ban ban didly ban bing
Brum ban swidly didly widly ban bing
Brum ban ban didly ban bing
Brum ban swidly didly widly ban bing

Play one tune them have to sit down pon it
Because they want it hard and romantic
We just play the riddim unde automatic because
Dis yah one just fantastic
Play the music night and day, ay
Dance the riddim and feel no way, boom
Play the music night and day, ay
Let de dance hall music play

When you're out of luck
and the voice of doubt is calling
When you're making love
You're never not alone

Don't know yourself
and not sure about the others
Have you forgotten God?
You're never not alone

When you're coming in
When it's time to make your exit
When you're out on the dancefloor
You're never not alone
Never not alone
You're never not alone
You're never not alone
You're never not alone
