

# Genesis, It's Yourself

Stepping out the back way  
Hoping nobody sees  
Feeling can be easy  
Think how I feel

What will (can) you say?  
What will you do?  
Why can't you see?  
It's yourself I love

Don't you know I'd like some answers  
You could give me a call  
I hardly know the reason  
And I really feel no good at all

Where will you go?  
Where will you be?  
Where can I try?  
It's yourself I love
