

# Genius/GZA, Come Do Me

Here I am loungin' at a hype party  
Then I see this lady with a hellafied body  
With a pair of bedroom eyes that were clocking The Genius  
Well, you see what I mean is  
She had the look as if she was attracted  
To me so what I did, I reacted  
In a manner to show that I was feeling the same  
Now check out the game  
I said lovely, I be The Genius and how ya doing?  
I'm on a chase and you're the one that I'm pursuing  
She said it's the pleasure Genius, I'm doing kinda fine  
But what's on your mind?  
I said

[CHORUS:]

Girl  
Come Do Me

I said sexy, where you live over yonda  
What's your name?  
She said it's Yolanda  
She said she knew me from back in the days  
And that I had her running on a wild sex craze  
I said now you're kinda big and well-developed  
And parts of your body just made my head swell up  
She said her feelings were so deep for me  
To the point where she wanted to sleep with me  
I said c'mon babe, I know you're jokin'  
She said if I'm jokin' you must be smokin'  
I said the only think I wanna be smokin' is your boots  
And she said "I hear ya troop"  
And just from that little bit of conversation  
It put my hormones into activation  
The whole thing just went to my head  
As I held her hands and said  
Baby, come do me

Hey good looking how many times may I say  
That your gorgeous smile takes my breath away  
Your soft warm little voice is very pleasing  
And your tight mini-skirt is kind teasing  
Me, it makes me wanna do the nasty  
And you got the look of being very classy  
So go ahead and whip it on me  
As Latifah said, "gimme that body"  
So you see right there I desire you  
I'm not a pimp and I don't want to hire you  
Cuase that's not what The Genius is about  
Let my love slide in and never slip out
