

Geoff Moore And The Distance, One Candle

moore geoff and the distance one candle lyrics

From the album foundations

Geoff Moore/David Martin/Dale Oliver

Matthew 5:14 16

Chorus

One candle burning bright

Two candles bring a little more light

All together we can light up the night

But it starts with one candle

Just on candle

No man is an island unto himself

We all need a little help

More and more darkness is falling down

It's time we find our common ground

Standing together as one

We can shine as bright, bright as the morning sun

Bright as the morning sun

Chorus

There's strength in numbers led by His hand

From wilderness to promise land

We'll find our way with hearts on fire

And feed the flame a little higher

A shoulder to lean on to

You call on me and I'm gonna call on you

Together we'll make it through

Chorus

It starts with on candle

Then there's two candles

Somebody bring me three candles

Look at all these candles

We're gonna light, light up this world

It starts with on candle

Then there's two candles

Somebody bring me three candles

Look at all these candles

We're gonna light this darkened world tonight

Repeat Chorus
