

George Cosby, Lonely Heartbeats

You called to the taxi when I left
You looked amazing, you were crazy just like me
Caught out in a photograph
Remember we were famous in the backseat of our dreams

We were out of our minds
I'm into yours, you're into mine
Deeper we'll drive

How long can we hold on before we fall?
Baby, we're outside rules that don't apply to you and me
How long can we hold on before we see?
Heaven alone knows we don't dance to lonely heartbeats

I don't wanna skip a step
But fears are waves I'm willing to lose, down to the sea
There's no such thing as taking things too far
Girl, far out is where we've always been

We're borrowing time
I borrow yours, you borrow mine
Deeper we'll dive
[Chorus]
How long can we hold on before we fall?
Baby, we're outside rules that don't apply to you and me
How long can we hold on before we see?
Heaven alone knows we don't dance to lonely heartbeat

Tonight, let's pull the moon down
Tell the stars to come out
Baby, we're outside rules that don't apply to you and me
And lonely heartbeats
And lonely heartbeats

If you make me any lighter
You would make me lighter than the wind
Oh-oh, oh-oh (Oh-oh, oh-oh)
If you make me any lighter
You would make me lighter than the wind
So before it begins

How long can we hold on before we fall?
Baby, we're outside rules that don't apply to you and me
How long can we hold on before we see?
Heaven alone knows we don't dance to lonely heartbeat

Tonight, let's pull the moon down
Tell the stars to come out
Baby, we're outside rules that don't apply to you and me
And lonely heartbeats
And lonely heartbeats
