

George Fox, I Give You My Word

You look pretty as a picture
With those flowers in your hair
Years from now I will remember
This vow I made to show I care
Even as those flowers fade to brown
I will love you then as I do now

(CHORUS)

I give you my word
I swear that I will
Love you until
Time stands still
Forever I'm yours
For better or worse
I stand before God
And give you my word
Oh...I do give you my word

There must be somebody watching
Over me from up above
Cause they've given me an angel
Knowing we'd make a perfect love
I don't know if words can go as deep
But here is my promise I will keep

(CHORUS)

As God as my witness
Let the lightning strike me down
If I ever break this promise
Made on sacred groundh
