

George Jones, Cry Like A Baby

By now I bet she's wonderin' how I'm doin'
If it broke my heart when she told me goodbye
Well every night I sleep just like a baby
I wake up every hour and cry

I'll bet she even thinks I'm gonna miss her
She probably thinks she's always on my mind
But every night I sleep just like a baby
I wake up every hour and cry

She believes that I can't live without her
And it hurts so bad some times I almost die
Well every night I sleep just like a baby
I wake up every hour and cry

(Spoken)
You know I bet way down deep
That she thinks I'll always love her
And I'll bet she thinks I'll never
Love another no matter how hard I try

'Cause every night I sleep just like a baby
I wake up every hour and cry
Lord every night I sleep like a little bitty baby
I wake up every hour and cry
I wake up every hour and cry
