

George Jones, From Here To The Door

FROM HERE TO THE DOOR

(Don Chapel)

'66 Glad Music

Well it's only my love you are taking
And it's only my heart you are breaking
For you it will be only footstep you're taking
But it's my lifetime from here to the door
From here to the door is your freedom
To you a short walk cross the floor
If you go now this house will be a prison
Cause it's my lifetime from here to the door
There you stand now but I guess that you're going
Where I failed you of no way of knowing
To you it's no more than a cold wind that's blowing
It's my lifetime from here to the door
From here to the door is your freedom...
Yes it's my lifetime from here to the door
