

George Jones, It's Been A Beautiful Life (Loving You)

Darling I've loved you all of these years
And you've never once caused the heartbreak or tear
Without you to love me oh what would I do it's been a beautiful life loving you
And darling I love you more every day and I'll stand beside you each step of the way
You've made it heaven my dreams have come true it's been a beautiful life loving you
If ever I need you you're always there life is much sweeter knowing you care
Always together till life is through it's been a beautiful life loving you
