

# George Jones, It Scares Me Half To Death

IT SCARES ME HALF TO DEATH

(Joe Allison - Audrey Allison)

'56 Central Songs

It scares me half to death to think I almost lost you  
It breaks my heart to know how much I made you cry  
And if you'll let me show you darling I'll right the wrongs I've done  
And ease the heartaches I have caused in the days gone by  
You told me that our love was cold and then you said goodbye  
But I can't love another I'd be living a lie  
It scares me half to death to think I had forgotten  
The vows we made to stay together come what may  
And while I'm holding you my darling I'm holding my breath  
Cause just the thought of losing you scares me half to death  
It scares me half to death to think I had forgotten...
