## George Michael, You've changed

|                | That are all latin  |                 | Varia amila in irrat |                 |            |
|----------------|---------------------|-----------------|----------------------|-----------------|------------|
| You've changed | That sparkle in you | r eyes nas gone | Your smile is just   | a careless yawn | Youre brea |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
|                |                     |                 |                      |                 |            |
