

George Morgan, I Never Knew Love (Until I Met Y

Come over here darling lay your head on my shoulder
I've waited all day to do what I'm gonna do
Put your warm arms around me while I whisper softly
Oh I never knew love until I met you

I thought I had tasted all that life had to offer
But love had done for me all it could do
Now you're my beginning and this time I'll make it
For I never knew love until I met you
(steel)
Until I met you love I never knew love
Could make a man feel the way I feel loving you
You're a proof that my old loves were just imitation
For I never knew love until I met you

I thought I had tasted...
