

George Stanford, Big Drop

Tonight, We're gonna set this record right,
Confess, come and get it all off your chest,
I know, how you like these things to go
Like me, how you wanna just take it slow

Today, we have to bury our old mistakes,
Come clean, tell your friends but you can't tell me.
I know, how you like these things to go
Like me, how you want to just take it slow

Pay attention to it,
We were been livin' with the lights off
Saving for the big drop
Telling everybody
Sing it with conviction, get ready for the big one
Get yourself ready for the big drop.
Oooh x3
Get ready for the big drop
Oooh x3

Believe in whatever it is you need
To tell that same old story well
I know how you like these things to go
Like me, how you wanna just take it slow

Pay attention to it,
We were livin' with the lights off,
Saving for the big drop
Telling everybody
Sing it with conviction,
Get ready for the big one
Get yourself ready for the big drop
Oooh x3
Get ready for the big drop
Oooh x3
Get ready for it
Oooh x3

Tonight, we're gonna set this record right
Confess, come and get it off your chest,

Save it for the big drop,

Say it with conviction, get ready for the big one,
Get yourself ready for the big drop
