

George Strait, Do The Right Thing

Once you told me you were gonna love me
That it was meant to be and there's no other way
Then came someone showed you more fun
We've had a good run better think it over

Do the right thing baby do the right thing
Go with your heart and do the right thing

He's got a good line, shows you a good time
Did he change your mind guess it's your move
I'll lose my pride I'd even step aside
Honey you really must decide who's best for you

Do the right thing baby do the right thing
Go with your heart and do the right thing

Do the right thing baby do the right thing
Go with your heart and do the right thing

You might chose me or chose to lose me
Someday you'll see the good thing you had

Do the right thing baby do the right thing
Go with your heart and do the right thing

Do the right thing baby do the right thing
Go with your heart and do the right thing

Go with your heart and do the right thing
