

George Strait, Get Along With You

I don't get along
With people who aren't kind
I don't get along
With folks with only money on their minds

And I don't get along with someone
Who's always trying to tell me what to do
But on and on
I get along with you

Well I don't like
People always tellin' me that I should change
They get simple lives
and they think they've got my life to rearrange

But they don't understand
Exactly what love boils down to
Cause on and on
I get along with you

Well all it takes to please me
Is waking in the morning feeling you by my side
And all I ever needed
Is knowin' that I'm needed in your life

I may not do
All the things that other people want me to
But on and on
I'll get along with you.

Yeah on and on
I'll get along with you.
