

George Strait, I'm Never Gonna Let You Go

Let's turn the lights down soft and low
And watch the fire embers glow
Let's lock the world outside the door
This is the night we've been waiting for

The moon is shining through the window pane
I hear the echo of a passing train
Taking someone's lover far away
But in your arms is where I wanna stay

Tonight I'm the luckiest man in the world
Wrapped in the arms of a beautiful girl
And now that I've found you
I'm never gonna let you go

Let your hair fall across your breast
Show me the warmth of your soft caress
The music's playin' soft and slow
We're driftin' into the afterglow

Tonight I'm the luckiest man in the world
Wrapped in the arms of a beautiful girl
And now that I've found you
I'm never gonna let you go

I'm never gonna let you go
I'm never gonna let you go
I'm never gonna let you go
