

George Strait, I Thought I Heard You Calling My Name

(Lee Emerson)

I said goodbye to you this mornin'
With only these words to explain
I said I'd found someone I love better
But I still hear your voice call my name

I thought I heard you callin' my name
Funny, I still feel this way.
Your voice seem so close, but I knew
That by now you were many miles away

--- Instrumental ---

I walk through the streets of the city
People passing by think it's so strange
I'm talkin' but there's no one beside me
I thought I heard you call my name

I thought I heard you callin' my name
Funny I still feel this way
Your voice seems so close but I knew
That by now you're many miles away

I thought I heard you callin' my name...
