

# George Strait, I've Convinced Everybody But Mys

The guys down at the job all want to know how things are going since I let you go  
I laugh and say my heart ain't missed a beat I've convinced everybody but me  
I'm all right I'm okay that's what I always say  
When they ask me how I'm doing without you  
I say I'm glad I'm free and if they all believe I've convinced everybody but me  
[ fiddle ]  
I'm the life of the party every night nobody knows I'm dying deep inside  
I don't hurt at all as far as they can see I've convinced everybody but me  
I'm all right I'm okay...

I smile in every mirror like I'm such a happy man but my heart knows what a liar I am I'm all right I'm  
Yes I've convinced everybody but me
