George Strait, One Of You

Last night I had a dream, dreamt I had it all I had it all I had one truck, one car Oneboat, one guitar But all these things wouldn't get me too far If I didn't have one of you

I work hard every day to bring home all my pay I got one house, one yard One dog who likes to bark We'd be cold, living the dark if I didn't have one of you

One of you is all I want and all I'll ever need One of you is all it takes to make my life complete

[Chorus:]
This is what I have, you have it all I got one heart, one love
One dream I'm dreaming of
Wouln't have known what to give it all to If I didn't have one of you

One of you is all I want and all I'll ever need

One of you is all it takes to make my life complete

[Chorus]
