George Strait, Run

If there's a plane or a bus leaving Dallas I hope you're on it If there's a train moving fast down the tracks I hope you caught it

Cause I swear out there ain't where you ought to be So catch a ride, catch a cab Don't you know I miss you bad But don't you walk to me

Baby run, cut a path across the blue skies Straight in a straight line You can't get here fast enough

Find a truck and fire it up Lean on the gas and off the clutch Leave Dallas in the dust I need you in a rush So baby run

If you ain't got a suit case
Get a box or an old brown paper sack
And pack it light or pack it heavy
Take a truck, take a Chevy
Baby just come back

There's a shortcut to the highway out of town Why don't you take it Don't let that speed limit slow you down Go on and break it

Baby run, cut a path across the blue skies Straight in a straight line You can't get here fast enough

Find a truck and fire it up Lean on the gas and off the clutch Leave Dallas in the dust I need you in a rush So baby run

Baby run Oh baby run Baby run
