George Strait, She Loves Me (She Don't Love Yo

Well now I can see your dancin every dance with her And it seems to me that your dancin much too close to her When you sat down at our table You sat next to her But I know that it's true She loves me, She don't love you

[Chorus:] Let me tell you friend I'm wise to your lies You've been tellin me that I'm the guy for her And every little thing you do and say Is givin you away You're in love with her

Well just one more dance with her And friend you're gonna see What it's like to hit the floor And do a little dance with me

Here's your coat and there's the door I think you better leave Cause she just told me it's true She loves me, She don't love you

[Chorus]

Well just one more dance with her And friend you're gonna see What it's like to hit the floor And do a little dance with me

Here's your coat and there's the door I think you better leave Casue she just told me it's true She loves me, She don't love you

Cause she just told me it's true She loves me, She don't love you
