

George Strait, You Still Get To Me

I feel the same way that I always have.
You still get to me, like you used to do.
I can't complain dear you make my life complete.
After all this time honey it's still true.
I want to thank you over and over.
I'm gonna love you through and through.
If you changed dear, you just got better.
You still get to me, like you used to do.

When I'm down dear, there's no way I can hide.
You still get to me, like you used to do.
And if I feel blue, your love is like a light
That you shine for me just to see me through.
I'm here to tell you over and over I just love you 'cause you're you.
If you changed dear, you just got better.
You still get to me, like you used to do.
