

# George Strait, You Sure Got This Ol' Redneck Fe

oh,i recall some barroom brawls,that I got myself into

just a stich or two,got me back together

but whats it take to ease the ache,that came with losing you

I thought I was tough,but goodbye is too much

this healing is taking forever

chorus:

woman you sure got this old redneck feeling blue

whats going on inside me I ain't used to going through

this ol country boys hillbilly heart is breaking in two

yea,you sure got this old redneck feeling blue

i've never seen anything,hit me quite like this

you know the pain and lonliness it keeps hanging with me

oh, this good time joe,he took quite a blow

oh, why'd you call it quits,it'll take some time

to mend my mind,and put me out of my misery

chorus:

woman, you sure left this old redneck feelin blue
