

George Thorogood & The Destroyers, Restless

Well, I walked up to the window
And I said gimme a ticket please
Said where to mister
I said that's alright by me
I'm just restless
I got to get on out of town
Take me where the livin's easy
That's where I'll be found

I'm travellin' light
Cause I might be goin' far
Takin' nothin' but the clothes on my back
This big red guitar
I'm just restless
Got to get on out of town
I'm gonna go right now
Take me where the livin's easy
That's where I'll be found

Gonna tell the driver put his big foot in that gas
Run this grey dog just as long as it will last
I'm just restless
Got to get on out of town
Take me where the livin's easy
That's where I'll be found

Run this greyhound far as it will go
Drop this country boy a little farther down the road
I'm just restless
I got to get on out of town
Yeah, take me where the livin's easy
That's where I'll be found

Well, I walked up to the window
And I said gimme a ticket please
She said where to mister
I said that's alright by me
I'm just restless
I got to get on out of town
I'm gonna go right now
Take me where the livin's easy
That's where I'll be found
