

# Gerald Levert, Don't Take It Away

For so long I've wanted to say  
You've changed the way I look at love  
And I pray you stay here by my side  
Cuz you see if you leave, forget existence  
I would rather die, you ask why  
Cuz when I'm with you I can fly  
Baby, I can touch the sky

[1]

Don't take it away, no  
Take your love away from me  
Don't take it away, no  
Without you I can't eat, breathe or sleep

You'll be takin' my sunshine, rainbows  
You don't wanna do that girl  
It'd be like takin' away a baby's  
Ice cream, sprinkles  
And I know you're not that kind of girl

You never said that you had plans to leave me

But I thought I tell you while  
I had the chance and a love this strong  
For so many ways, it was too late  
To express the happiness  
Don't know what to do  
After the love is gone  
They can't even carry on

[Repeat 1]

See with you I'm complete  
Girl, you are so sweet  
Nothing can compare to you being there  
You see, girl you know that I'll respect you  
I never would neglect my responsibility to love you  
So don't take it from me, no  
No, no, no, no  
Don't take it away  
Don't take it away

[Repeat 1]

[Repeat 1]
