

Gerald Levert, Rock Me

Girl who you been talking to
Tell me whose been lying to you
They say I'm cheatin' doing this and that
Why you frontin' girl
Now you know it ain't like that

You know I cherish our relationship
In the middle of the night
Get up and buy a bag of chips
Just to keep you satisfied
If I'm doin' wrong lord knows I'm tryin'

Tell me what it is tell me what can I do
To make you understand
I'm crazy 'bout you I can't do without you

You got me whipped and I slipped
I must be trippin' I'm so proud
To say I'm your man

Chorus
Absolutely positively
Girl I love you please don't doubt me
Take me in your arms and rock me all nite long

Absolutely positively
Girl I love you please don't doubt me
Take me in your arms and rock me all night long

Tell me what you want me to do
I spent my whole life lookin' for you
So I consider you forever mine
Those who don't like it
Kiss where the sun don't shine

Girl I'll be there through the thick and thin
When you can't even find your so called friends
So let me be the one you talk to
Whatever probelm we can slove 'em
Between me and you

Repeat chorus two times

Rock me rock me all nite long baby
Rock me rock me all nite long baby

Chorus
