## Gerald Levert, Smile For Me

Now we're looking face to face and eye to eye baby I can feel your pain, he ain't doing you right. Think of all the time you waste you tried and tried he never really knew your worth but you don't have to cry

and whenever he won't do you the way you want him to don't cry
(I'll be there no more hurt, no more pain)
baby you're the air I breath
and I give the world to see you smile
(all I want is to see you smile for me)

now you open up your eyes to see he's not the one let him go just like a stormy haze I'll bring out your sun now your pain is in the past dry your eyes and all I ask just one more thing let me see you smile

## [chorus x2]

when your all alone - smile waiting by the phone - smile and he don't call - smile for me I'll be by your side - smile no more lonely nights - smile, smile for me baby won't you smile for me

[chorus x2]
