

Gerald Levert, Where Do We Go

It's a shame
It's a shame
See I can't live with you
And i can't live without you
One minute I trust you,
The next minute i doubt you
One day you're my soulmate,
The next day I wish you'd go away
So i don't hafta see you,
but i know that i need you

[Chorus:]

We done broke up and got back together a 100 times, think we're both outta our minds
Tell me girl where do we go from here
How can two people love each other,
then turn around and hate one another,
Tell me gurl, where do we go from here

See you can't live with me,
And you can't live without me,
One day you lovin me,
The next day you talkin bout me
See youre meddlin girlfriends
got ur business all in the streets
Tellin them you wanna leave me,
But you know know that you need me

We done broke up and got back together a 100 times, think we're both outta our minds
Tell me girl where do we go from here
How can two people love each other,
then turn around and hate one another,
Tell me gurl, where do we go from here

We done broke up and got back together a 100 times, think we're both outta our minds
Tell me girl where do we go from here
How can two people love each other,
then turn around and hate one another,
Tell me gurl, where do we go from here

[Hook:]

Where do we go from here?
(How can we)Get past all our fears
(Tell me where do we go)There's gotta be a better way,
(There's gotta be a better way)If we're gonna see a better day

[Chorus:]

We done broke up and got back together a 100 times, think we're both outta our minds
Tell me girl where do we go from here
How can two people love each other,
then turn around and hate one another,
Tell me gurl, where do we go from here

We done broke up and got back together a 100 times, think we're both outta our minds
Tell me girl where do we go from here
How can two people love each other,
then turn around and hate one another,
Tell me gurl, where do we go from here
