

# Gerald Levert, Wilding Me Out

[1]

Everybody plays a fool (For someone)  
Calling you and paging you (9-1-1)  
Can't stand when you're not around  
Your love is wildin' me out  
Wilding me out, wilding me out  
Wilding me out

Crazy, I used to call it crazy  
When my friends used to be  
All confiding in me 'bout their girl  
See, I never understood  
How any real man could  
Let a woman come in  
To change and shake up their world, uh no  
One thing you can not change now I feel this way

[Repeat 1]

Calling your house, hangin' up  
Doin' all that crazy stuff  
Girl, I followed you home  
Just to see if you're alone, baby  
Ain't that crazy baby  
Got me callin' all your so-called friends  
Seeing what you did last night again  
I can't sleep, I can't eat  
You done beat me at my own game, baby  
Yes you did  
I guess it's true cuz I'd be your fool  
If you asked me to

[Repeat 1 x2]

I would do about anything  
Just to keep you happy baby, yeah  
I used to live a player's life, yeah  
But you came and changed my mind baby

[Repeat 1 with ad libs until fade]
