

# Geri, Ride It

Ah you're riding it  
Wanna make some music to  
Take me in and out of my head  
Get into my groove  
In time with my body instead  
And when the bass kicks in  
I can feel my song beginning  
It's a groovy kinda high  
Cos you're the only one  
Who can pump in line the way i like  
You're a DJ I'm a song  
Take me out and turn me on  
Let yourself go  
Ah you're riding it  
Chica's bumping to the beat  
From the saddle underneath  
Yeah my body's where this party's at  
Ah you're riding it  
When you're spinning it ah and you're riding it  
Here's a little rudeness  
It's a tempo with an overload  
He has jiggy with it here  
But all I wanna do is vogue  
And when the bass kicks in  
Dance like no one's watching  
It's funny kinda feeling  
Cos you're the only one  
Who can pump in line the way i like  
You're a DJ I'm a song  
Take me out and turn me on  
Let yourself go  
Ah you're riding it  
Chica's bumping to the beat  
From the saddle underneath  
Yeah my body's where this party's at  
Ah you're riding it
