

# Germes, Manimal

came into this world like a puzzled  
panther  
Wanting to be caged  
But something stood in the way  
I was never quite tamed

I crossed the paths of right and wrong  
And saw them take their toll  
I saw armies that marched  
And like animals they crawled

(Chorus)

Evolution is a process too slow  
To save my soul  
But I've got this creature on my back  
And it just won't let go

If I am only an animal  
Then I can do no wrong  
But they say something better  
So I've gotta hold on
