

# Germs, Throw It Away

I've been looking, looking so far  
You've been this thing, listening so hard  
I've been talking, stalking all night  
You've been thinking, thinking I'm right-

I've been missing, listing some parts  
I've been falling, calling it art  
We've been lurking, working for clues  
We've been whistling, this thing for you

Trying to make some kinda sense out of it  
Throw it away-throw it away  
Trying to make some kinda sense out of it  
Throw it away-throw it away  
Don't know what I really got  
Don't know if I even thought
