

# Gesaffelstein & Pharrell Williams, Blast Off

you've been thinking about this all night  
all week and this was right  
cross your heart and hope to die  
are you sure you wanna pay the price  
do it outside in the night  
cause where you going is the life

when I am looking in your face  
oh, higher, higher  
you give me faith  
oh, high up in the sky  
I feel the same  
oh, higher, higher  
this must be fate  
what do I know?

Saying that you wanna know  
What it feels like to let go  
Everything that was before  
Should you do it in the youth?  
Be enlightened, feel the truth  
But the serotonin ... youth

when I am looking in your face  
oh, higher, higher  
you give me faith  
oh, high up in the sky  
I feel the same  
oh, higher, higher  
this must be fate  
what do I know?

I need somebody, I need a witness  
I need somebody, I need a witness  
I need somebody, I need a witness  
too look in your eyes  
when you see the vision  
I need somebody, I need a witness  
I need somebody, I need a witness  
I need somebody, I need a witness  
too look in your eyes  
when you see the vision

late night decision  
do you wanna be lifted  
late night decision  
do you wanna be lifted  
late night decision  
do you wanna be lifted  
Heloo spirit  
Blast off!
