

Gesaffelstein & Pharrell Williams, Blast Off

you've been thinking about this all night
all week and this was right
cross your heart and hope to die
are you sure you wanna pay the price
do it outside in the night
cause where you going is the life

when I am looking in your face
oh, higher, higher
you give me faith
oh, high up in the sky
I feel the same
oh, higher, higher
this must be fate
what do I know?

Saying that you wanna know
What it feels like to let go
Everything that was before
Should you do it in the youth?
Be enlightened, feel the truth
But the serotonin ... youth

when I am looking in your face
oh, higher, higher
you give me faith
oh, high up in the sky
I feel the same
oh, higher, higher
this must be fate
what do I know?

I need somebody, I need a witness
I need somebody, I need a witness
I need somebody, I need a witness
too look in your eyes
when you see the vision
I need somebody, I need a witness
I need somebody, I need a witness
I need somebody, I need a witness
too look in your eyes
when you see the vision

late night decision
do you wanna be lifted
late night decision
do you wanna be lifted
late night decision
do you wanna be lifted
Hello spirit
Blast off!
