

Get Smart!, Because Of Green

Sit back and consume
There is nothing left to choose
Automatic this and that
Sit right back and get fat

Sit right back
Sit right back

Relax until you die
It's a sin to just get by
Your eyes are turning green
Living life suppressed by greed

Relax
Relax

Relax until you die
It's a sin to just get by
Automatic this and that
Sit right back and get fat

Sit right back
And relax
