

# Get Smart!, Black Mirror

In the night  
I can pretend  
Black and bright  
I see the end

Vicious nightmares  
Silent dreams  
Only black stares  
Frightened screams  
Reflections of nothing,  
nothing but fear  
Shiny future  
In my black mirror

White sunlight  
Shows us the past  
Bright black night  
Covers all that

Only dreams see  
what I know  
No one's with me  
where I go  
There's nothing that I see,  
nothing is here  
Shiny future  
In my black mirror

In the night  
I can pretend  
Black and bright  
I see the end

Vicious nightmares  
Silent dreams  
Only black stares  
Frightened screams  
Reflections of nothing,  
nothing but fear  
Shiny future  
In my black mirror
