

# Get Smart!, On And On

You're eyes have cracked  
They've shattered the image  
Convenience for the moment

On and on  
and on and on and on  
It slips away

The place is packed  
Who's image is worse?  
Controlling every movement

On and on  
And on and on and on  
And run away

No time to look back  
Trapped in the past  
Controlling all the destiny

On and on  
and on and on and on  
And fade away

You keep thinking  
You keep acting  
Keep on pretending

On and on  
and on and on and on  
and on and on and on  
and on and on and on  
and on and on
